INDEX.

Abbot, Henry L. Hydraulics of Rivers 161
Gauging of Rivers 305, 382
Adjustable Multiplying Mirror, an 8
Air Brake, the Westinghouse 158
Alizarine, Artificial 370
American Association for the Advancement of Science 366
American Gas Wells 368
American Railroad Master Mechanics Association, the 362
American Society of Civil Engineers, proceedings of ..43, 87, 110, 317, 332, 334, 339, 413
Ammonia an Antidote for Mercury Vapors 362
Andrews, E. B. Bituminous Coal, its Origin, Varieties and a few of its Special Uses 58, 133
Aneroid, a Large 253
Aniline Powder 216
Another Steel Process 160
Artificial Alizarine 370
Asbestos 301

Baltimore Tunnels, the 148
Band Saw, a Huge 222
Batchelder, Samuel. Some Particulars in Relation to Cotton and Cotton Manufactures, Chronologically Arranged 355
Beckwith, Arthur. On the Composition of Ancient Cements and Rosendale Cements 204
Beila's Comet and the Meteors of November 27th. By Daniel Kirkwood 131
Belting Facts and Figures. By J. H. Cooper 98, 323
Bending Glass Tubes, improvement in 154
Bessemer Machinery. By Alex. L. Holley 233
Bessemer Process, the Chemistry of the 294
Bibliographical Notices:—
On the Strength of Bridges and Roofs. By Samuel H. Shreve, C. E. New York: D. Van Nostrand, 1873 229
Bituminous Coal, its Origin, Varieties and a few of its Special Uses. By E. B. Andrews 58, 133
Blackwell's Island Water Supply 293
Boiler Circulation, the Eldridge 47
Boiler Incrustation—Report of Committee of Am. Railway Master Mechanics' Association 172
Bricks, Resistance of, to a Crushing Force. By Geo. S. Greene, Jr 332
Bridge, the Girard Avenue, at Philadelphia 361
Bridge, the East River 298
" " " " 149
" the Niagara Suspension 79
Building Materials, Experiments on 152
Building Stones and Fire 291
Bursting of a Fly Wheel 86

Cables, a New Steamship for Laying 79
Canadian Wooden Railways 79
Car Axle, a Self Lubricating 75
Carbon Prints on Plaster, &c 46
Cast-Iron Pier Cylinders, Fracture of. By J. C. Trautwine 304
Cements. On the Composition of Ancient Cements and Rosendale Cements. By Arthur Beckwith 204
Chemical Experiment, a 82
" " " 344
